

Assignment

Create a robust script to open a specific Doors module and export all requirements with special attribute values in a CSV file which also have special links

From Doors module

Doors module folder name: "Interview"

Doors module name: "ESR_Interview"

Export all Requirements with attribute values in a file ("tabulator" as separator):

Attribute_1: "Objektyp" should have value "Anforderung"

Attribute_2: "Requirement Status" should have value "Valid"

Attribute_3: "Development Responsible" should include "ESRLabs"

Following output shall be stored

attribute "Object ID"

attribute "Implementation Status ESRLabs"

countOfLinks

attribute "Object Text"

Where countOfLinks are the Links per Requirement fulfilling:

Link module folder name: "ESR_Interview"

Link module name: "ESR_Interview_Links"

LinkedAttribute_1: "Objektyp" should have value "Anforderung"

LinkedAttribute_2: "Requirement Status" should have value "Valid"
